The News.

Two preliminary votes were taken in Congress, Monday, upon the Lecompton question. In the Senate the Lecompton Swindlers carried their point by *six* majority, but were defeated in the House by *three* votes. Mr. KEITT made an apology for his ruffianly conduct on Friday night.—Kansas is now the ruling theme at Washington, and pretty much all over the country.

No important business transacted in our State Legislature yesterday. There is a talk of adjourning from the 12th inst. to the 1st of March, leaving the Investigating and Judiciary Committees at work during the recess.

Our city readers will find a long but interesting account, in this morning's paper, of the proceedings in our Common Council relative to the Harbor Contract.

Yesterday was a fine sample of winter weather, cold and clear, with very fine sleighing, which was duly improved in our city.

There was a better feeling in market yesterday, and with larger receipts the demand was brisk and prices firm.

Milwaukee and Mississippi R. R. Annual Meeting.

The Annual Meeting of the Stockholders of the Milwaukee and Mississippi R. R. Company was held in this city yesterday morning. There was a very large attendance of the country stockholders; the afternoon train of Monday bringing in some 250, and the morning train, yesterday, between three and four hundred.—Many of them were accompanied by their wives and families, and the large Freight Depot of the Company, where the meeting was held, presented, at noon, a very animated spectacle.

The meeting was called to order, about 11 o'clock, by Col. GEO. H. WALKER, the Vice-President of the Company, who stated that the President, Mr. BRODHEAD, was unavoidably detained at the East by sickness in his family. The Annual Report of the Directors was read by Mr. A. FINCH, Jr. It gave a brief, but satisfactory account of the condition of the Company; a full statement of its assets and liabilities; an estimate of the earnings for 1858 and 1859; and expressed the confident conviction that the floating debt would all be provided for, during the current year, and that, thenceforward, the business of the road would steadily increase and prove amply remunerative.

Mr. JERVIS, the Superintendent, next read his Report, reviewing the operations of the past season and giving detailed statements of the property, earnings, expenses &c., of the road, for the year just closed. We condense some of the statistics contained in this Report. The Company now own 235 miles of main track and 28 of side do.—in all 263 miles—which, with the equipments, depot grounds and buildings, fuel, fencing, right of way &c., has cost about $29,000 per mile.—The road is in excellent running order and well stocked; there being 44 Locomotives, 33 first-class Passenger Cars, 13 Baggage and Mail do., 411 covered Freight Cars and 208 cars of other sorts. The gross earnings for 1857 were $884,817 against $689,474 in 1856—an increase of $202,343—and the running expenses of '57 were $412,200; leaving the net proceeds $470,617. The main increase in the business, for 1857, has been derived from through passengers; this road now taking off much of the travel, to and from the North West, which formerly sought the Chicago and Galena R. R. route. There is enough wood on hand to last the Company 15 months, and within the next three months, the salaries, expenses &c., have been reduced about twenty per cent. We shall endeavor to lay a full abstract of both these Reports, before our readers, as soon as they are in print.

After the reading of the Reports, Col. WALKER announced that the polls would be opened at 12 o'clock and closed at 4 P. M.; that the Directors had offered no ticket, but left it to the stockholders to make up one to suit themselves; that a substantial Lunch was provided in the spacious upper loft of the Freight House, to which he bade the stockholders welcome; and that, no other business offering, the meeting was adjourned.

Upon the adjournment, there was a general rush to the Lunch Room, and thence to the Ballot-box; very lively electioneering being in progress all the while. There seemed to be a strong country party in favor of several changes in the Board of Directors, but opinions differed as to the right men to put in the places sought to be vacated. The voting commenced vigorously at noon, and was kept up, with much spirit, till the hour of closing the polls.

FROM KANSAS.

Extract of a letter dated:—

LEAVENWORTH CITY, K. T. Jan. 29, 1858.

"We consider our politics as good as settled now, and the only excitement expected is in reference to killing off the Lecompton Constitution, if an attempt is made to force it upon us. I have always acted with the Democratic party in the Territory, and have not yet abandoned it, for with the exception of about 1,000 outlaws,—embracing less than one-sixth of our numerical strength,—the democrats of Kansas are as unalterably for a free State, as are the same number of democratic electors in Wisconsin."

"I have seen Alcck. Randall's Message and like it very much. All the Badger boys in Kansas are proud of it, and speak of, and point to it as a source of gratification. Will Randall hold out, as well as he has commenced?"

Appointments by the Governor.

Amasa Cobb, Iowa county, as Adjutant General, Wisconsin State Militia.

Daniel Graham, aid to the Commander-in Chief.

Oskab Koch, agent to collect fines, &c., in Manitowoc Co,

Amasa D. Tainter, Sheriff of Clark Co., to fill vacancy.

John Axtell, agent to collect fines, &c., in Kewaunee and Door counties.

W. W. Jackson, County Judge of Monroe Co, to fill vacancy.

W. H. Watson, Madison, Military Secretary.

William Blake, Dodge Co., major General of the 6th Division, comprising Columbia, Dodge, Washington and Ozaukee counties.

Quantus H. Barron, Colonel, 22d Regiment, Dodge County.

Rudolph Sauerbiering, Lt. Colonel, 22d Regiment, Dokge county.

CITY MATTERS.

COMMON COUNCIL PROCEEDINGS.—An adjourned meeting of the Common Council was held on Monday night, to take into consideration the harbor and salary matters.

The Mayor and a quorum of Aldermen were present.

A number of accounts and petitions were presented and referred to various committees for examination.

A petition from Peter Wahl in relation to error in assessed value of lots 11 and 12, in block 103, in 5th ward, was referred to the committee on Taxes.

A petition from Nelson Cross and others, asking for the use of the School Commissioners Hall, for the meetings of a club of gentlemen, for literary purposes, was referred to the Finance Committee.

The City Comptroller reported, that, in accordance with a resolution of the Common Council, he had endeavored to raise money upon the notes of the City, to pay the interest falling due on city bonds, and that his efforts to raise the money here having failed, he was obliged to go to New York, and that he was enabled to raise the required amount, ($12,000) by leaving as collateral 13 city bonds, and by giving his note for the same, at 60 days, drawing interest at 7 per cent.

The Comptroller recommended the issue of city bonds to be placed in the hands of our agents in New York, to be disposed of according to the directions of the Common Council, for the purpose of paying interest as it becomes due. The communication was referred to the Finance Committee.

A resolution was adopted, instructing the City Treasurer to cancil certain Street Commissioners orders, erroneously charged upon the books of the Comptroller.

Alderman Gotzhausen presented his resignation as a member of the Bridge Committee, which was accepted.

Alderman Loeffler also presented his resignation as a member of the Harbor Committee. Accepted.

Alderman Faulkner was appointed to fill vacancy in Bridge Committee, caused by resignation of Alderman Gotzhausen.

The Police Committee, to whom had been referred the petition, asking the release of William Delehanty, now in jail for assaulting a policeman, reported in favor of granting the petition, as Delehanty has a large family who are entirely destitute. A resolution in accordance with the recommendation of the Committee was adopted.

THE HARBOR CONTRACT.—The consideration of the Harbor matter, was next taken up and occupied the Council until 11 o'clock, when they adjourned to 9 o'clock yesterday morning, when it was proposed that the Council should go into Committee of the whole to adopt some plan of investigating the claims of the Harbor Contractors.

Alderman Plankinton was proceeding to review the history of the Harbor improvement, when he was interrupted by Alderman Hadley, who wished to know if the matter was before the Council.

Alderman Prentiss here moved that the resolution of Alderman Gotzhausen presented at the last meeting, providing a committee to investigate the Harbor work, be taken up; which was carried.

Alderman Greulich was at Madison when the last meeting of this Board was held. He greatly regretted, in reading the report of the Council proceedings in the newspapers, that a spirit had been manifested on the part of some of the members, to make boy's play of the council doings. He thought it was our solemn duty to investigate the matter fully, and he was in favor of the most thorough examination, and he believed that the Council was fully capable of investing the matter themselves without calling in outsiders to their assistance. He thought a question of this magnitude should be fully investigated, and that the contractor should have his just due and no more. Thought the amount claimed was enormously large. Could hardly believe that the city owed him (the contractor) so much, but whatever was right he was willing should be paid. He would therefore offer as a substitute for the gentleman's resolution, that a committee of nine be appointed, consisting of one from each Ward, to examine the matter and report to the Council.

Alderman Gotzhausen said he did not come to the Council with any notion of making boy's play, but he came to represent the wishes of his constituents who were calling unanimously for an unprejudiced investigation of the matter, and, continued the Alderman, I have lately ascertained new reasons why such an investigation is imperatively demanded. Mr. Gunnison, the Government agent, had informed him that the contractor had already received more than his just dues—that a useless expenditure of $25,000 had been made in putting up protection work which was entirely useless, and not authorized by the city. He thought it was time the city should take the matter in their own hands, and investigate for themselves.

Alderman Plankinton had taken the trouble to examine the papers and books of the city engineer, in relation to the estimates made upon the work, and was satisfied that he was correct, and that he had full confidence in the honesty and ability of the City Engineer. He had compared the figures of the City Engineer's estimates with the report of the Harbor Committee, and found a great discrepancy in the comparison.—According to his estimate by the books from the engineer, the amount due the Harbor Contractor was $25,000; whereas the Harbor Committee had reported that the amount of $95,000 was due upon the work.

He thought it was an attempt to defraud the city out of a large sum. He was in favor of the contractor's bringing his claim into a court of justice where both sides could be fairly investigated, and then he would get his due whatever it might be.

Alderman Greulich thought the matter should be entirely investigated by the Council, and urged the adoption of his substitute, that is the appointment of Committee of one from each Ward.

Alderman Gotzhausen again sustained his resolution for an Investigating Committee. The People require that it should be investigated by unprejudiced parties.

Ald. Mallory was down on the city newspapers, in general, and the Jenny Lind Club, in particular, who, he said, were trying to bring the action of this Council into disrepute for political purposes. He was surprised to hear the gentleman from the Fourth Ward take up the outside cry of "fraud," particularly when that gentleman's colleague (Ald. Taylor) and co-worker had been the one who brought disgrace upon the Council, and was the principal cause of this annoyance. The gentleman occupies a delicate position and should keep still. It looked to him like a man's kicking himself. He was astonished that any member of the Council should support such a resolution as that offered by the gentleman from the Second Ward. He was not surprised that the Aldeman of the Second Ward should be made the tool to present a resolution from a Relief Committee; the gentleman of the Second Ward did not probably know when he was kicked. He was probably the agent of the Jenny Lind Club that was now fighting the Council for political purposes. The gentleman himself might be acting for political objects; it might be that he (Gotzhausen) took the thing to heart; but he thought if Mr. Gotzhausen was expecting any political preferment at the hands of the people of this city, he was getting such a load on his shoulders that it might take a chronic turn and effect him physically, so that he might be unable to bear the arduous duties of public office hereafter.

How about the political character of the outside Investigating Committee? Look at one fact: The Report was not signed by one of the members comprising it. The Report was so slanderous that they dare not sign it individually; it was simply a party howling outside, looking for political objects hereafter, and made up principally of those who had heretofore, by their action in relation to the issue of bonds for railroad purposes, brought all the trouble on the city.

He wished to have some degree of respect shown the Council, as to their own credibility, and was emphatically opposed to outside figuring.—Thought the Council competent to investigate matters, that came within its bounds. Hoped the gentleman from the 2d Ward, would stand by his resolution, but he did not think enough members would support him to carry it through. If so, he was satisfied.

Alderman Doerrnink, expressed his wish to see the matter fully and satisfactorily investigated by the Common Council, but was opposed to referring the matter to outsiders in any shape.

Alderman Prentiss thought it was a great mistake to suppose that all the wisdom and intelligence of the City, was confined to the members of the Council. There is a great deal of wisdom and talent outside of the Common Council.

Alderman Mallory—"I am willing to acknowledge the wisdom of the Jenny Lind Club."

Alderman Prentiss, severely rebuked the gentleman from the 7th ward, for endeavoring to cast a slur upon the characters of the gentlemen to whom he alluded. "They were men of good standing; they were old settlers here, some of the first settlers of this city; they were men of good character—of longer residence in this city than the gentleman himself, and their characters will bear an close inspection as the character of any man could. It was folly to allude to their characters—they were beyond reproach.

Alderman Prentiss further sustained the right of those "outsiders" to take an interest in this matter, and to require a full explanation of the demands made upon them. It is they who have to bear the burden and their enquiries as to its correctness should be satisfactorily answered.

We were told when the last city bonds were issued to apply upon the Harbor contract, that the work was completed, and that that was for the final completion, and now comes up a claim for $76,000, which I supposed, and the citizens at large, supposed had been settled long since. And still the work is not yet completed. The Alderman urged the necessity of appointing a competent committee of honorable men to examine the matter, enquire into the cost of materials and work done, and report to the Council their opinion of the matter. If such an investigation should result in conformity with the correctness of the City Engineer's estimates, and the Harbor Committees report, it would be all the more creditable to them, and if there is anything wrong we want to get at the truth of the matter.

Alderman Greulich was not opposed to bringing in any one who could throw any light upon the subject, but he did not want to rely upon their statements or the Council to take action upon them, because they were not bound under oath as the City Engineer and members of the Council are in making their reports.

Alderman Hadley said there was not a gentleman on the Board who had signed his name to that report, who was not in favor of the fullest investigation. He alluded to the time spent by the Committee, and the trouble they had taken in investigating the whole matter, and stated that the report was carefully and accurately made. The gentleman from the 2nd, Gotzhausen, had the honor of a seat in the Legislature, and would the, Gotzhausen, dare to get up and offer a resolution, asking that a Committee of persons, outside of the Legislature, be appointed to transact or investigate business?

Alderman Gotzhausen replied that he would do it, if he thought necessary, as readily in the Assembly as he had done in the Council.

Ald. Hadley proceeded—that he had misunderstood the opinion of the Gov. Agent, if it was as the gentleman had said it was, as to the protection work in 1854. He (Ald. Hadley) was, in his absence, appointed Chairman of the Harbor Committee, and after mature deliberation the Commitee had recommended to the Council the use of the protection cribs, as the best manner in which the work could be facilitated, and that by such means the work could be completed several months sooner than without the use of the protection cribs. The city acted upon the recommendation of the Committee, and the cribs for protection were then used.

The contractors were instructed to use cribs in such a manner that they could be taken up again and used as contemplated, for the protection of the other sections, and in the end for the docking of the streets abutting on the harbor improvements. The loss of the cribs was occasioned by a storm having come on, and capsizing the cribs, they broke to pieces; the stone, of course, was lost, and the timbers broken, some of them lost and some stolen.

The estimate of the amount lost as made by the City Engineer was about $6,000. This estimate was different to the one made by the sworn engineer of the city. It was made by a gentleman of strong prejudices from whom he could expect nothing favorable to him, if the gentlemen he referred to, had done anything that favored the construction of the Straight Cut, he was willing to give him all the credit that was due him as the Government Agent; but if he had thrown sticks in its way, he would not give him credit for that.

Ald. Hadley reviewed at length the work on the Harbor, when a discussion took place between him and Ald. Plankinton in relation to the prices of timber, stone, &c.

Alderman Plankinton enquired if, when the City Engineer was appointed to make the estimates, were not those estimates to be the prices that were to be paid for the work of the city?

Ald. Hadley replied that they were. He then proceeded to state his objections to the resolutions offered; if this matter was investigated by outside gentlemen, how could the Council act or vote on the thinking and the knowledge of outsiders.

Ald. Gotzhausen was in favor of the "Independent Committee," the people had a right to such a Committee, one reason he would state was this: that the people were of the opinion that one of the members of the Committee was a contractor himself in the harbor matter.

After some further discussion the resolution was voted down, and it was resolved to meet the next morning at 9 o'clock, and go into committee of the whole upon the subject of investigation.

MORNING SESSION.—The Council met yesterday morning pursuant to adjournment. The Mayor was in the chair. The chair appointed Alderman Hayden to fill vacancy in Harbor committee, caused by the resignation of Alderman Loeffler.

Alderman Hadley moved that the Council resolve itself into a committee of the whole, the Mayor in the Chair. Motion carried.

The Alderman stated that he had learned the City Engineer was unwell and could not wait upon the Council this morning. He hoped, however, that that would not prevent the Council from beginning the proposed investigation.—He proposed to have the clerk take up the record of the matter from the beginning, and let each member of the board enquire about anything that he did not fully understand, and if there appeared any discrepancy, the engineer might be called upon to explain it.

Alderman Prentiss was opposed to commencing the investigation until there was a full Board present, and he had a suggestion to make which he hoped would be accepted, and which he thought would do away with the necessity of Council's investigating in the manner proposed. His proposition was, that a Committee of nine Aldermen, consisting of one from each Ward, be appointed to whom the entire investigation may be referred, and give the Committee the privilege to call in such persons as they might select to assist them in making a full investigation of the whole matter, and make a full report to the Council, of what they consider to be a fair value of work done by Mr. Hasbrouck, if Mr. Hasbrouck is entitled to one hundred thousand dollars, I shall cheerfully vote for allowing it to him and if there is but ten thousand due him, it is right that we should know it. It is well known that the public mind is greatly agitated about this matter, and he therefore hoped that the Council would not oppose the suggestion, which he had made for an impartial investigation.

Alderman Hadley opposed referring it to a portion of the members of the Council. He wanted to give every member an opportunity to investigate the matter himself, and then each one would have to take his share of the responsibility. He did not believe that the public would be any more satisfied with the report of that Committee, than they had with the report of the Harbor Committee. We cannot shuffle off our duty upon those nine members, let each member take his share, and examine for himself.

Alderman Prentiss thought a full and impartial investigation could not be made in that manner. We should have to base all our calculations upon the reported estimates of the Engineer. The Council in a committee of the whole cannot go and examine the work on the harbor, as was necessary. The estimates of the City Engineer may be incorrect. He may have made very many miscalculations. We want everything that has been done to be re-estimated. If his estimates are corroborated by competent persons then it will be reasonable to suppose that he is correct. It is the duty of this Council to commit the matter to another committee. The people are entitled to a satisfactory explanation. We're told that the work is not even completed yet, and that $8,000 will be required to finish it. If this be the case it should be enquired into.

If the investigation could go on here, and we could have a new estimate of the work done, I would have no objection to that.

Alderman Plankinton thought the Council should be governed entirely by the estimates of the City Engineer, as we were bound by the original contract to submit to his estimates, and he had the fullest confidence in the ability and integrity of the City Engineer.

Alderman Johnson moved that Alderman Hadley be also appointed as one of the investigating committee, which was carried.

Alderman Greulich proposed the name of Alderman Johnson be added to the committee.

Alderman Hadley—The gentleman from the 1st ward is wrong, and I can't help thinking he knows it. The whole Board can have everything that is necessary for an investigation as well as any portion of the Council. If they desire to have new estimates made, they can do so. If, however, all the circumstances of the case came before a Court, the city would have to abide by the estimates of the engineer, according to the original contract.

Alderman Prentiss—The gentleman from the First Ward has repeatedly told this Council that the old or original contract was a nullity, and if this be so, then the new contract is a nullity, because it had not been let as our charter provides, and therefore the estimates of the engineer are also not binding, and this contract is void. What we want now is to get at the estimates made by some other party. The public mind is so agitated, that I do not think our constituents will be satisfied without a new estimate. This would be no impeachment of the ability or reliability of the City Engineer. If his estimates were confined, then all parties would be satisfied.

After a long and tedious discussion, Alderman Prentiss' resolution was defeated, and the Council adjourned to meet in the afternoon at 2 o'clock.

AFTERNOON SESSION.—There were but 17 members present at 3 o'clock in the afternoon. Alderman Hadley moved that the Marshall be despatched to hunt up the absentees.

Alderman Hadly moved that the investigation be commenced at once, and that the clerk be instructed to bring in all the documents in relation to the matter and read them in detail.

Alderman Johnson moved that the Mayor be excused from attending during the investigation which would probably occupy a week or two.

The Mayor stated that if the Council went in to a committee of the whole it would not be necessary for him to preside.

Alderman Mallory moved that the Council resolve itself into a committee of the whole and proceed with the investigation, which was carried.

On motion of Alderman Johnson, Alderman Mallory took the Chair, and the investigation was commenced.

The Council will probably be occupied with the matter the whole week.

THE OPERA ON MONDAY.—The ever-favorite Opera of "Norma" was repeated by our Musical Society, on Monday Evening, to another very full house. The performance, as on the previous occasion, was excellent and heartily enjoyed by the audience. The leading characters were sustained by the same gentlemen and ladies who personated them before, the not, perhaps, with equal ability. "Severo" was not in as good voice as we have heard him, and in several scenes he faltered in his part; but in the closing duett with "Norma," he redeemed himself.—"Oroveso" was excellent, as usual, and in his singing and acting left little to be desired.—"Adalgisa," looked and sang sweetly. This lady is a finished musician and always appears to advantage. "Norma" fully confirmed the very favorable impression she made at her first appearance in this part. Her voice is indeed a superb one; and under such an accomplished instructor as Mr. BALATKA its powers and beauties must be fully developed. The orchestra was full, strong and well-trained; the Orchestra numerous, well-arranged, and under capital drill. Indeed, Mr. BALATKA always brings his forces into the field, in good order and with a thorough understanding of the business in hand. Taken throughout, the performance of the Opera was another success of which our Musical Society and our City may well feel proud.

MILWAUKEE CITY INS. CO.—The annual election for five Directors, held at the office of the Company, Monday, resulted in the election of C. D. Davis, S. S. Conover, J. Humphrey, W. A. Prentiss and Joseph F. Hill—and a meeting of the Directors in the evening, for the purpose of electing officers, resulted as follows:

E. TOWNSEND, *President.*
C. COMSTOCK, *Vice President.*
A. L. WALRATH, *Secretary.*
J. A. HOOVER, *Treasurer.*
H. L. PALMER, *Attorney.*

The Company also paid a cash dividend of 5 per cent, on the capital stock.

CIRCUIT COURT—JUDGE MCARTHUR PRESIDING.—Geo. W. Brainard, et. al. vs. G. B. Boyd, et. al. Complaint dismissed on motion of defendant's attorney.

Henry Bothner, et. al. vs. H. L. Page, Sheriff, Action discontinued at defendant's costs.

M. Marsh vs. Wm. Wood. Complaint dismissed with costs to defendant.

James O. Bloss vs. Henry Spaan—case proceeding.

A NICE LOT OF TURKEYS.—We saw yesterday, at the office of Eliot and Holmes, on the M. & M. R. R. platform, a lot of 50 turkeys, fatted and brought in by Mr. M. I. Boyce, of Eagle, which were certainly the best lot we have seen this winter. They are in the market and will doubtless meet with ready sale.

LIVELY STREETS.—The light fall of snow, during Monday night, gave us passable sleighing, yesterday, and in the afternoon our principal streets were alive with sleighs of all sizes and descriptions, filled with joyous parties intent upon improving the golden hour. A bright sunshine and bracing air enhanced the general enjoyment.

FIRSMEN'S BALL.—Excelsior Hook and Ladder Co., No. 1, give their fourth annual Ball, at the Republican House, on Tuesday evening next, 16th inst. It will, no doubt, be gotten up in the Company's best style.

☞ The attention of dealers in Saddlery, Hardware, Carriage Trimmings, Varnishes, &c, is called to the advertisement in to-day's columns, of Messrs. HAYDEN, KAY & Co., of Chicago.

NOTICE.—Tickets to the Railroad Ball at Fond du Lac, on Thursday evening, Feb. 11th, 1858 for sale at No. 165, East Water street, of M. Hendricks, Passenger Agent of C. St. P. & F. du Lac R. R.

DONATION VISIT.—The friends of the Rev. Mr. Podelupe, our indefatigable city Missionary, are invitited to pay him a visit at the German Mission room, corner of Tamarac and West Water St. on the evening of Thursday, Feb. 11th.

RESOLUTIONS OF THANKS.

ARMORY OF THE MILWAUKEE LIGHT GUARD, Feb. 9th, 1857.

At a regular meeting of the Milwaukee Light Guard, Company "A," held at their ARMORY, on Monday evening, the 8th inst., the following resolutions were unanimously passed:

Resolved, That the sincere thanks of this Company be hereby tendered to the Officers of the Milwaukee & Mississippi Railroad Co. for their generous courtesy in extending to us a free pass to and from Madison, on our recent trip.

Resolved, That our acknowledgments be hereby tendered to Mr. DeWOLF, the gentlemanly proprietor of the "Capital House," Madison, for the many and marked civilities shown us during our short stay with him.

Resolved, That our gratitude is especially due to Col. J. F. FRARY and others, for their unceasing attention in providing for our bodily comforts.

Resolved, That we also return thanks to Gov. Randall and his staff, the officers of the Battalion, and the delegates from Company "B," for their successful endeavors to render our jaunt mutually agreeable.

E. N. HURD, Secretary.

MIL. & MISS. R. R. ELECTION.—The following gentlemen were, yesterday, elected Directors of the Mil. and Miss. R. R. Company for the ensuing year:

E. D. Holton,	John Catlin,
H. Crocker,	E. Cramer,
J. H. Tweedy,	A. Mitchell,
A. Eldred,	G. H. Walker,
S. Wolcott,	Harvey North,
A. Finch, Jr.,	E. D. Clinton,
H. L. Dousman,	J. Goodrich,
E. L. Dimmock,	F. G. Tibbits,
	N. Dowey.

Messrs. Crumer, Tweedy, Mitchell and North are new members, the others were all members of the old Board. Of the four Directors who went out, Mr. JOHN O. WRIGHT, of Schenectady, N. Y., and Mr. E. H. BRODHEAD, of this city, declined a re-election.

The Directors hold a meeting to-day, for the purpose of electing officers.

PLENTY OF ICE.—The fears that we should not have a sufficiency of ice to supply the demand for the coming summer, may now be put at rest, for we are out of danger on the ice question, and no doubt our citizens will have all they need of that useful commodity. The dealers are now actively engaged cutting it and filling their houses. The ice in most places upon the river is clear as a crystal, averaging from six to eight inches in thickness. Although this is much lighter than the ice which is usually laid up for common use, yet it will answer every purpose as well as the heaviest.

H. Kroeger, who for many years past, has been the faithful ice purveyor for our city, will not be in the field next season, as he intends spending the summer in Europe. His place, however, will be filled by others, who are fully competent to keep our citizens cool, however warm the weather may be. Mr. Deiderick Nipper, is making active preparations to supply the city with an excellent article of ice. He has put up a large building on River street and another in the 5th ward, which are now being filled under the superintendence of Mr. Kroeger. Nobody knows better than Kroeger how to cut and pack ice to good advantage. Over two hundred tons were got in yesterday from the river, north of Queida street bridge. They mark out nearly an acre of it at a time, in square slabs, and then cut it with a saw, and float it up to the ice house, where by a very convenient contrivance it is drawn in by horse power, in large quantities, and snugly packed away.

☞ Country Merchants visiting our city can find the location of the principal Wholesale Houses and Manufacturing Establishments, by reviewing the Business directory column of this paper.

COMMERCIAL.

Milwaukee Market.

OFFICE OF THE DAILY SENTINEL, MILWAUKEE, Feb. 10, 1-65.

BY MAGNETIC TELEGRAPH

XXXVth Congress—First Session.

WASHINGTON, Feb. 8.

SENATE.—The Kansas question came up as the special order.

Mr. Fessenden, of Me., made a speech in opposition to the views of the President. He argued that the President's argument was a one-sided view of the case. He must say that the President had not only been guilty of ignoring a well known fact, but of stating things which he must have known, if he had examined the documents, could not be true.

Mr. Fessenden condemned the denunciatory style of the message towards the majority of the people of Kansas, while it spoke in terms of implied admiration of all that had taken place there in opposition to the efforts of the people to obtain a free State Constitution. He reviewed at length the message, saying he was opposed to this attempt to force slavery on the people of Kansas, and would agitate so long as a single hope remained that slavery might be driven from the territory which was stolen and robbed from freedom.

Messrs. Clay and Benjamin briefly attacked Mr. Fessenden's position.

Mr. Davis accused him of uttering disunion sentiments.

Mr. Fessenden did not recognize the authority of Mr. Davis to lecture him, and denied that he attacked slavery in the States where it was established, or advanced disunion sentiments, and remarked that he had seen an extract from a speech of Mr. Davis, in which it was said that the latter entered President Pierce's Cabinet as a disunion man.

Mr. Davis replied that this was false; that the extract from his speech was perverted, and explained what he had said; that Mr. Fessenden's course would have the effect of undermining the constitution.

Mr. Wilson's proposition to send for persons and papers and examine into all the facts relative to the adoption of the Lecompton Constitution, was rejected, by 6 majority.

The Kansas message was then referred to the Committee on Territories.

Pending an effort of Mr. Douglas to get up his resolution calling for information of the President on Kansas affairs, the Senate adjourned.

HOUSE.—The galleries were densely crowded, including many ladies.

The Speaker announced the pending proposition to be on seconding the demand for the previous question on the several motions to refer the President's Message.

The demand was seconded by 110 against 105.

Washburne of Me., demanded the yeas and nays but did not press it. The main question was ordered to be put by yeas 113, nays 107. The result of this vote was watched by everybody with extreme anxiety. The next question announced to be on the motion of Mr. Stephens, to refer the Message to the committee on territories; the House disagreed by 114 to 113.

The next question was announced on agreeing to Mr. Harris' proposition, which was adopted.

Mr. Clark, of N. Y., asked to be excused from voting on the ground that a vote in the affirmative would be inconsistent with those he had just given, and that a vote in the negative would imply an unwillingness to have an investigation made, which should be by the Committee on Territories. The House refused to excuse him by a vote of 89 against 106.

Mr. Barksdale moved to lay Mr. Harris' ammendment on the table.

Mr. Florence said that the motion was not consistent with the understanding previously agreed upon.

Mr. Harris remarked that it would be recollected that the understanding was by universal consent.

Mr. Savage did not think the motion to lay on the table would be inconsistent with that agreement as it might finally determine the question in the House.

Mr. Harris' ammendment was then carried by a vote of 114 against 111.

Mr. Harris, of Ill., moved to reconsider the vote and to lay that motion on the table. Carried—yeas 116, nays 111.

Mr. Hughes' resolution merely to refer the Kansas message to a select committee by the adoption of Mr. Harris substitute as given above was agreed to 115 to 110.

Mr. Keitt rose to a personal explanation, saying that the House would remember that its proceedings during the session of Friday were broken in upon in an unpleasant manner. It was due to fair dealing that he should assume to himself all responsibility for the violation of its orderly dignity and decorum. He was the aggressor, and whatever of responsibility attached to that act belonged to him alone. It was also due to justice that he should make whatever reparation was in his power to the dignity and decorum of the House thus violated.—He did this in the expression of his profound regrets at the occurrence. Personal altercations are always unpleasant, very seldom excusable, rarely justifiable, never in a legislative body.—He felt in full force the responsibility he had assumed in saying that he was the aggressor, and that the entire responsibility belonged to him.—In this communication he had but one other remark to make, and that was, that whether any blow was directed at him or not, was more than he could say; at least he was unconscious of having received it. With this explanation, he begged from the subject.

Mr. Grow said he had been taught in childhood that all fights among men are disgraceful to human nature, and to the christian community and this is especially the case when they occur among law-makers in the midst of their deliberations. Riper years and the force of education had satisfied him that this lesson was good and true; yet the act of self defense had been recognized as one of the inalienable rights of man to be exercised on all occasions and under all circumstances, whenever necessary for the protection of life or property. At the last sitting of the House he found himself unexpectedly engaged in the first personal conflict of the session.—He tendered to the House most cheerfully what apology was due for the violation of its order and decorum, and no one regretted more than himself the occasion for this violation of its order. The House immediately adjourned.

WASHINGTON, Feb. 9.

Senate.—Mr. Douglas moved to postpone the Army Bill in order to take up his Kansas resolution, calling for returns of election, &c.; lost—yeas twenty-three, nays thirty.

Mr. Douglas from Committee on Foreign Relations, reported a resolution granting authority to the President to settle difficulties with Paraguay. Ordered to be printed. Various petitions and memorials were presented including one from Iowa, praying for reimbursements for the expenses of the Indian war at Spirit Lake, and that the volunteers in that war recover grants

MILWAUKEE:

WEDNESDAY MORNING, FEBRY 10

Not all Serfs.

It is gratifying to find that there are some among the Northern and Western Democracy who refuse to follow the Pro-Slavery lead of Mr. BUCHANAN, or to lend their aid to the adoption of the Lecompton Swindle. There are, too, a number of out-spoken Democratic press which denounce this latest Kansas Iniquity and its Federal progenitors in fitting phrase. Among these is the Janesville Democratic *Standard*, the organ of the Rock County Democracy. Unlike the servile *News*, the *Standard* takes bold ground against the Swindle and its abettors. We quote from its leading article of Saturday last:

The message is important only in this, that it puts the Administration forward boldly and defiantly as the champion of the Lecompton swindle, and makes it an administration measure before the country. We had hoped that, by some Providential interposition, the scales might fall from the eyes of those who control the executive councils, that they might see and avoid the rock into which they have now fallen; but, blindly and recklessly, disregarding the remonstrances of the people, the faith of the party and their own express or implied pledges, the President and his Cabinet have hurried and made haste to place the administration in a position where defeat will render it powerless and success even more disastrous.

* * * * *

We dissent from and condemn every act of the administration in regard to Kansas, from the time when the first faint intimation was received that the Lecompton bastard was to be legitimatized and adopted by the Government, up to the present moment. We condemn the administration of James Buchanan in this, as we could not condemn our opponents, were they in power—they, by pursuing this course, would simply have countenanced an infamous wrong, while a democratic administration does more.—It breaks its most solemn pledges to countenance that wrong.

* * * * *

Let President Buchanan remember, that as he now stands, he could not carry a single county in a single State north of Mason and Dixon's.—The imprudent and arbitrary "whippers in," Bigler and Fitch, or one of them, have proved "traitors," and "Benedict Arnolds." We assure those gentlemen that, if they would know to whom those epithets apply, they can ascertain by an application to the insulted, outraged and *misrepresented* democracy of Indiana and Pennsylvania. *They* talk about Benedict Arnolds—they, whose names have already become synonymous with treachery and servility. These namathisms, these curses of theirs indeed come home like chickens. They, like all northern men who are whipped or cajoled to the support of the administration upon this question, are to be pitied as well as despised. Their motives are too apparent to need explanation or admit of excuse. With this present Congress ends their political career, unless a generous administration remembering their sacrifices and sympathizing with them in their disgrace, pensions them to some federal office, beyond the reach of the people, for a few months.

CONFLICTING ORACLES.

From the N. Y. Freeman's Journal and Catholic Register

Kansas in Congress.

In a few days we may see what progress will be made in Congress towards destroying the democratic party, by the desertion of its platform, and the attempt to change its character and its fundamental principles. The vitality of the democracy has been put to many severe tests, and has survived. With leaders such as Doughas, Walker and Wise we look to see it come out of the fray strengthened and purified.

Special Dispatch to the N. Y. Herald.

WASHINGTON, Feb. 4.

Mr. Douglas and his friends despair of defeating the Lecompton Constitution. They are trying to effect a compromise in some shape. They are losing ground every day. It is a foregone conclusion that the Constitution will pass both Houses.

Both the papers, from which the above extracts are taken, are "Democratic" organs, but differ widely in their views on the Kansas question. Each, however, is partly right; the *Herald*, we fear, in predicting the certain success of the Lecompton Swindle, and the *Freeman's Journal* in announcing that this success will destroy the Democratic party.

Who are the Deserters?

The *News*, with a coolness that is quite sportsmanlike at this season of the year, charges the Republicans with "deserting their positions," and instances this in proof:

As regards slavery, and the jurisdiction of Congress in the Territories, it is notorious that the republicans have wheeled square about.—This no man can deny; none of the editors and orators of that party have attempted to deny it.

If nobody has denied this, it is because nobody thought it worth while to contradict so absurd a misstatement. The Republican party holds to day precisely the same ground "as regards Slavery and the jurisdiction of Congress in the Territories," that it has always held.

But though the Republicans have stood fast, others have faltered, and other some turned their backs. The *News*, for instance, which accuses Republicans of "desertion," has itself been guilty of the vilest treachery and most glaring abandonment of principle. Scarce two months ago the *News* was eloquent and indignant in its denunciations of the Lecompton Swindle, but now it upholds and justifies this mammoth villany. Here is what the *News* said in November and December last:

"We will say, however, that Congress cannot accept the Lecompton Constitution, without *repudiating* the principles and pledges of the Democratic party for the last three years, without being the instruments for consummating a *great outrage* upon the people of Kansas, and upon the men who stand pledged to the fundamental doctrine that *the People shall rule*."—*Milwaukee News, Nov.* 20.

"This bold attempt at political smuggling, is so foul and iniquitous, that it would be safe to predict anything undemocratic and unchristian of its reckless authors."

"We do not hesitate to pronounce the course of the Convention a departure from the line of democratic policy, a violation of the principles of the Kansas Nebraska Act, and an outrage upon the people of Kansas.—*Milwaukee News, Dec.* 4.

But two short months have elapsed and how changed the *News* tune! It now sustains this "bold attempt at political smuggling," this "violation of the principles of the Kansas-Nebraska Act," this repudiation of "the principles and pledges of the Democratic party," this "great outrage upon the People of Kansas," and with Mr. BUCHANAN and our National Democratic Administration, insists upon it that *the People shall not rule!*

How it is to be done.

With his uniform partiality for the section, Mr. Buchanan has disclosed to the South the plan by which he expects to get the Lecompton swindle through Congress. The Washington correspondent of the Richmond *Enquirer* writes just how the thing is to be done:

WASHINGTON, Feb. 1.

The Lecompton Constitution has arrived and will be, to-day, submitted to Congress with a special message from the President of the United States. The fate of the Constitution is uncertain. Strict party discipline may carry it through the Senate, but in the House there is a majority of four against its reception, under any and all circumstances; and yet it is said that Mr. Buchanan has declared his determination to put it through Congress in thirty days or *burst*. These four votes may be had, as there are a number of desirable *Executive appointments* ready to be given out, but it will require nice party engineering.

The design to *buy* votes enough to carry through the Lecompton Swindle, is openly avowed, and may succeed; but woe to the Northern Judases who sell themselves!

AMERICA LOOKING UP.—The French *Journal des Debats* says the President's Message approaches more than any previous ones the style of an address from a throne of Europe.

From the Albany Journal, Feb. 5.

Prof. Daniels's Geological Survey of Wisconsin.

We have received a copy of the Annual Report of the Geological Survey of Wisconsin, made to the Governor of that State by Professor Edward Daniels, State Geologist.

By an act passed March 3d, 1857, this young, energetic and vigorous State made provisions for a Geological Survey, and it must be a source of just pride to its citizens, that men of science reside within her limits capable of undertaking and efficiently executing such a noble work. An American State improvised in the short space of three or four years from the rugged and unbroken wilderness, scarcely permits its first score of youthful years to pass before thousands of common schools and public libraries and numerous academies, colleges and universities are scattered all over its whole extent, diffusing the rays of that intelligence which, like the beams of the sun upon those boundless prairies, interpenetrate and vivify the minds of all within her borders.—His Liberal provisions are also made for those scientific researches and surveys which an European Kingdom, with the accumulated wealth of a thousand years, hesitate to undertake.

As each new State of the occident wheels into the line of that great procession of Republican states, ever marching steadily onward toward an immortality of fame, may it surpass its predecessor not only in general intelligence and high mental and moral culture, but in a scientific research and a noble appreciation of its own power and resources.

Prof Daniels accompanies his report with a very able and interesting paper on "the Iron Ores of Wisconsin," showing that the undeveloped resources of that State are practically inexhaustible, and that with a proper investment of capital, skill and enterprise, she can supply half a dozen States with that metal which is as precious to the American people as silver and gold. The price of English rail road iron ranges from $60 to $80 per ton in New York, and there has been imported into the West (according to Prof. Daniels' Report) nearly 200,000, tons within the last ten years, worth $20,000,000, at $60 per ton. What would not this vast sum have accomplished had it been used toward the development of the invaluable mineral resources of this young and vigorous State. In the eloquent language of the Report before us:—

"If we would prosper permanently, we must do everything possible within ourselves. Whatever the Creator has given us in soil, mine, forest, lake and river, that is our much fundamental capital which we are to make the most of, if we would carry out the designs of nature, and reap the reward. When we have improved all our resources to their fullest extent, and exhausted invention in attempts to create new values, there will still be enough that we shall need, and cannot produce, to sustain our foreign and domestic trade, and help to "wind the silken chain of commerce round the world;" and more, what will be well, both for our reputation and our pockets, we shall then have means to pay our distant neighbors for what we buy of them.

"Iron is truly one of the precious metals.—Its production enriches without demoralizing. Its returns are sure and steady, coming as the legitimate fruits of capital, skill and labor united to master the secrets of nature, and unravel her sub lest combinations.

"Our iron mines are more precious than veins of gold. Spain owning half the New World, sending her ships across the sea with every inspiring breeze, guarded by inevitable armadas and loaded with the gold of her provinces, dispised her iron and drove away her craftsmen.

"England shut up in her island home, wrought silently among her mountains of iron, and supplied every market with her fabrics and her wares.

"Look now at the noble, growing, and beneficent civilization of the one: Contrast it with the rottenness and decay, verging fast upon dissolution, of the other.

"The expansion and development of our iron interest is well worthy of the serious attention of the State. It will add largely to our wealth, population and prosperity; it will enlarge our material dominion and give us commercial independence, and by introducing a new element into our industry, exert a healthy and prosperous influence upon the inventive genius of the people."

The Survey has not progressed sufficiently to develope the various points of scientific interest which have arisen in the Geological formations and specimens of other and older States, but enough has been elicited to prove that the appropriation of moneys from the State Treasury for this purpose, has been wisely made, and will in time be followed by the most beneficent results.

Prof. Daniels is a young man of well known scientific acquirements, of untiring industry and indomitable perseverance. In whose hands the Geological Survey of Wisconsin will be zealously prosecuted to its completion.

From the Richmond Enquirer, Jan. 26.

The Equestrian Statue of Washington.

In obedience to the urgent demand of public curiosity, the equestrian statue of Washington, was yesterday uncovered, and all its beauties unveiled to the gaze of thousands, who, for several hours, stood around in admiring criticism of the group. About 12 M. the face of the Great Captain was uncovered, and three hearty cheers went up on the noble features were opened to view, a bright sunshine lighting up the face.—We must defer to an early day a description of the group, which, without one dissenting voice, ranks as we could learn, is pronounced a wonderful triumph of art. In stiff o donile, the statue is perfect, and seems to move and speak with all the naturalness and vividness of nature.

The statue will be again veiled this morning—so that the tens of thousands who will visit Richmond on the 22nd February, may enjoy the surprise of novelty that delighted so many yesterday. We have to advise all who wish to realize the perfect likeness of Washington, as accordant with the face of Houdon's statue, to look at the statue of Washington from the east; that is, from the line running from the western point of the City Hall portico.

All we have to say at present is, that all our labors and anxieties about the success of the Virginia Washington monument are more than compensated by the unveiling of the Washington group.

In the language of a distinguished foreigner of talent and taste. Virginia, and Richmond, can justly claim to have the finest work of art in the world.

In conclusion, we are requested by several leading citizens to suggest that a public meeting of the citizens of Richmond be called at once, to make arrangements for the entertainment of the large number of visitors who will be in Richmond at the great celebration on the 22d February. We leave to others to carry out the patriotic suggestion.

STATE PRINTING.—The Madison Patriot says that according to the report of the Secretary of State, the Argus office has received for printing, publishing, &c., for the past year, $40,361,40.—*Janesville Gazette.*

The *News* was greatly shocked, a few days since, at the discovery that the "enormous sum" of $20,000 had been paid, during the last year to various "Black Republican publishers," ostensibly for printing, but really as a reward for partisan services. The fact that its yoke-fellow of the *Argus* received, during the same time, more than double that "enormous sum," seems, as yet, to have entirely escaped the *News'* attention.

WHAT THE MORMONS ARE ABOUT.—The following is an extract of a private letter, placed at the service of the Washington Union, and written by a gentleman of that city, now with Gov. Cumming, *en route* to Utah. The letter is dated Camp Scott, Dec. 1.

It is understood that the Saints are fortifying Echo Cannon by the means of a series of dams and canals; with these they can flood the canon, and thus present a formidable barrier to our progress.

The latest news from Brigham is cheering; he is enjoying his absolute dominion over the Saints unalloyed by the presence of a single Gentile, they having all been sent out of the Territory by way of California, and it is understood that the Saints are to be sifted, and murmuring apostates sacrificed upon the altar of Mormonism. I am told that it is a fact that Brigham has said he would sacrifice in the public square all apostates, for by the shedding of their blood alone can they atone for the sin of apostacy.

HOLE-IN-THE-DAY'S DUEL.—A number of the St. Paul *Pioneer* of a later date than the one which noticed the death of Hole-in-the-Day, makes some corrections in its first statement.—It says, it is true that a duel was proposed by the chief and accepted by Giggy, but instead of Colt's revolvers the weapons were pint flasks, filled with the worst kind of Indian whisky. Several shots passed between them, and Hole-in-the-Day fell early in the fight with a severe wound in the neck. "That's the way it begun."

OUT OF FUNDS IN TEXAS.—The San Antonio Herald, 15th inst., says both the Quartermasters and Paymasters' Departments of the Army at that post have been out of funds for a month past. More than fifty thousand dollars are now due Major Howard for hauling supplies for the Government from the coast to the different posts west.

THE AMERICAN RAILWAY AND TELEGRAPH IN JAPAN.—The Emperor of Japan, says a letter from that country, in the Paris *Pays*, has by a decree of the 25th of October last, appointed Prince Hayashi, High Imperial Commissioner of the three ports of Nogashi, Simoda, and Hakodadi. In that capacity the management of relations with foreigners will be confided to him, and for his guidance the Emperor had caused to be drawn up a series of regulations, fixing the formalities to be observed by foreigners who want to take up their residence in the ports opened to them, the manner in which they are to carry on trade, and the privileges their consuls are to enjoy. These regulations are of a liberal character, and are in accordance with the spirit and letter of treaties. The present Emperor is a very enlightened man, and Prince Hayashi, who possesses all his confidence, is also intelligent, free from all prejudices against foreigners, and knows several European languages. When the Americans were here, they presented the Emperor with models of a railway, and with a small electric telegraph. His Majesty was greatly pleased with both, and had the latter fixed up in his palace; he thoroughly understands it, and appreciates its importance. He has ordered that a line of telegraph shall be constructed from Jeddo, his capital, to Simoda, where Prince Hayashi is to reside.

MINING REVIVED—NEW DISCOVERIES—OLD DIGGINGS.—Mining is reviving in Grant County; at least a third more mining is done this year than last, and from accounts reaching us, miners are more fortunate in making large discoveries than they have been for years—probably because more is done at prospecting or proving new grounds. Most of the mining done for some years has been mere overhauling of old and partially exhausted digging.

Grant county may always rely upon producing lead ore amounting to somewhere between $600,000 to $1,000,000 per annum even in the hardest of times. A few days ago, a smelter told us that there must be now $200,000 worth of mineral in the country ready for market. He says he can get no money of Corwith nor elsewhere to buy mineral; therefore the mineral must lie in store like wheat and produce of the farmers, for want of buyers. Mineral won't rot, nor will the rats eat it.—*Grant Co. Herald.*

NEW BUSINESS.—The Boston Transcript relates the following good one:—"It is well known in business circles that during the hard times, many persons indebted to our merchants have paid in produce and various articles of merchandise, and that signs offering flour, wheat, butter, &c. for sale, have been placed on stores rather out of the line of such commodities. A merchant of this city, after seeing so many of his neighbors in the produce and provision business, said in a jocose way that he was going to put a sign on his door offering, "Buttermilk at two cents a quart." His remarks were overheard by an honest but slightly verdant lad employed in the store, who, desirous of making himself useful to his employer, made a bulletin in accordance with his master's threat. Great was the astonishment among the neighborhood to learn that the extensive wholesale house of ——, in Pearl street, were selling "Buttermilk at two cents a quart." The joke was too rich to last more than half an hour, but the demand for buttermilk at low rates rather increased than otherwise as the story spreads among the shoe trade."

BUSINESS CHANGE.—We learn that Hon. Walter D. McIndoe has leased his mills in this village and all grounds and appurtances pertining to the milling business, to Col. Charles Shutter, his former partner in business, and Messrs. Hugh McIndoe and Charles H. Taylor for a term of five years. The lumbering establishment leased is said to be the most extensive of any in the State, being capable of manufacturing 60,000 feet of lumber in twenty-four hours.

The new firm—Shutter, McIndoe & Taylor—will also have charge of the mercantile business formerly carried on by W. D. McIndoe, and by McIndoe & Taylor. They now have several companies of men in the woods logging, and design getting a sufficient supply of logs to keep their mills running all next season, and to pile up their lumber on the Mississippi river bank, if the market will not justify a sale.—*Central Wisconsin.*

FOREST CITY BANK.—This Banking house is now located in Robinson's new stone block, where it has one of the neatest and most elegantly furnished offices in the whole State. This bank is considered, by men who pretend to be posted on all such matters, as one of the safest and most respectable in the State. It is owned by a wealthy and sagacious set of men, several of whom are worth more than similar institutions of larger pretensions. We are, in the main, opposed to all banks, but if we must tolerate them we say patronize such as are conducted on the soundest basis and most honorable principles.—*Waukesha Democrat.*

THE WEATHER.—To-day our unusually mild winter manifests some colder symptoms. The thermometer this (Wednesday) morning was down to 12 ° below zero, much lower than it has been before since about the 20th of November. We have scarcely snow enough to whiten the ground, yet in the roads sufficient ice remains to make tolerably fair slipping.—*Central Wisconsin, Feb. 3.*

Manitou City Town and Land Company.

A. B. PAUL, one of the proprietors, is now in this city for the purpose of securing machinery for mills, &c. All persons contemplating moving West early in the coming season, are cordially invited to call and examine our plans, maps, &c., at the American House. A good opportunity is also offered to mechanics and tradesmen of all kinds, to secure—"even with limited means"—good homes in one of the richest valleys of the Northwest.

See pamphlet containing sketch, &c., of country adjacent, and plan of the proprietors in building up an important point on the Sioux River, Iowa. We want actual settlers. Call and see us and talk the matter over. dec23Odif

A VALUABLE MEDICINE.

DURING the present week no less than six of our friends who have been induced to try Prof. De Grath's Electric Oil for Rheumatism, in consequence of having seen this preparation advertised in our columns, have called upon us to state the result of their experiments.—These persons assure us that their rheumatic pains have been entirely cured by a few applications of De Grath's Electric Oil, and they recommend its use to all who are afflicted with any of the diseases which it is designed to cure.—*Prov. Adv.*

☞ For sale by Bosworth & Sons, and J. H. Tesch, Milwaukee; Fahnestock & Davis, and Reed & Co., Chicago; and by Druggists and Merchants generally throughout the country. feb10d4w1w

☞ There are plenty of young gentlemen as well as plenty of old ones whose beards are turning grey, which gives the former a great deal of uneasiness, and exposes the age of the latter. To avoid these little perplexities, we advise such of our readers to use Prof. Wood's Hair Restorative, which will, in the course of a few weeks, change the hair to its natural color. It does not dye the hair like the most of the hair restoratives, but produces a gradual change of color from the roots of the hair to the final end; and gives it a fine and glossy appearance. We have seen many persons who have used it successfully, and pronounce it the only invention which has come to their knowledge, for grey heads.—We commenced using it about two months since, and if we are any judge of age and beauty, it has made us at least ten years younger; in fact, we are beginning to look quite young, and feel very much like getting a young wife. The change is miraculous, and it would be as difficult to find a grey hair now as it would be to find an idea in the head of the Duke of Buckingham. We know several old maids and some young widows, whose locks are just beginning to assume a silvery hue; and who have been talking serious y about resorting to this remedy, and we advise them not to delay any longer. It never fails.—*St. Louis Herald.*

MILWAUKEE:
WEDNESDAY MORNING, FEB'Y 10

Not all Serfs.

It is gratifying to find that there are some among the Northern and Western Democracy who refuse to follow the Pro-Slavery lead of Mr. BUCHANAN, or to lend their aid to the adoption of the Lecompton Swindle. There are, too, a number of out-spoken Democratic press which denounce this latest Kansas Iniquity and its Federal progenitors in fitting phrase. Among these is the Janesville Democratic *Standard*, the organ of the Rock County Democracy. Unlike the servile *News*, the *Standard* takes bold ground against the Swindle and its abettors. We quote from its leading article of Saturday last:

The message is important only in this, that it puts the Administration forward boldly and defiantly as the champion of the Lecompton swindle, and makes it an administration measure beyond a peradventure. We had hoped that, by some Providential interposition, the scales might fall from the eyes of those who control the executive councils, that they might see and avoid the rock into which they have now fallen; but, blindly and recklessly, disregarding the remonstrances of the people, the faith of the party and their own express or implied pledges, the President and his Cabinet have hurried and made haste to place the administration in a position where defeat will render it powerless and success even more disastrous.

* * * * *

We dissent from and condemn every act of the administration in regard to Kansas, from the time when the first faint intimation was received that the Lecompton bastard was to be legitimatized and adopted by the Government, up to the present moment. We condemn the administration of James Buchanan in this, as we could not condemn our opponents, were they in power—they, by pursuing this course, would simply have contemned an infamous wrong, while a democratic administration does more—it breaks its most solemn pledges to countenance that wrong.

* * * * *

Let President Buchanan remember, that as he now stands, he could not carry a single county in a single State north of Mason and Dixon's.—The impudent and arbitrary "whippers in," Bigler and Ritch, or one of them, have prated of "traitors," and "Benedict Arnolds." We assure those gentlemen that, if they would know to whom those epithets apply, they can ascertain by an application to the insulted, outraged and *misrepresented* democracy of Indiana and Pennsylvania. *They* talk about Benedict Arnolds—they, whose names have already become synonymous with treachery and servility. These anathemas, these curses of theirs indeed come home like chickens. They, like all northern men who are whipped or cajoled to the support of the administration upon this question, are to be pitied as well as despised. Their motives are too apparent to need explanation or admit of excuse. With this present Congress ends their political career, unless a generous administration remembering their sacrifices and sympathizing with them in their disgrace, pensions them in some federal office, beyond the reach of the people, for a few months.

CONFLICTING ORACLES.

From the N. Y. Freeman's Journal and Catholic Register

Kansas in Congress.

In a few days we may see what progress will be made in Congress towards destroying the democratic party, by the desertion of its platform, and the attempt to change its character and its fundamental principles. The vitality of the democracy has been put to many severe tests, and has survived. With leaders such as Douglas, Walker and Wise we look to see it come out of the fray strengthened and purified.

Special Dispatch to the N. Y. Herald.

WASHINGTON, Feb. 4.

Mr. Douglas and his friends despair of defeating the Lecompton Constitution. They are trying to effect a compromise in some shape. They are losing ground every day. It is a foregone conclusion that the Constitution will pass both Houses.

Both the papers, from which the above extracts are taken, are "Democratic" organs, but differ widely in their views on the Kansas question. Each, however, is partly right; the *Herald*, we fear, in predicting the certain success of the Lecompton Swindle, and the *Freeman's Journal* in announcing that this success will destroy the Democratic party.

Who are the Deserters?

The *News*, with a coolness that is quite superfluous at this season of the year, charges the Republicans with "deserting their positions," and instances this in proof:

As regards slavery, and the jurisdiction of Congress in the Territories, it is notorious that the republicans have wheeled square about.—This no man can deny; none of the editors and orators of that party have attempted to deny it.

If nobody has denied this, it is because nobody thought it worth while to contradict so absurd a misstatement. The Republican party holds to day precisely the same ground "as regards Slavery and the jurisdiction of Congress in the Territories," that it has always held.

But though the Republicans have stood fast, others have faltered, and other some turned their backs. The *News*, for instance, which accuses Republicans of "desertion," has itself been guilty of the basest treachery and most glaring abandonment of principle. Scarce two months ago the *News* was eloquent and indignant in its denunciations of the Lecompton Swindle, but now it upholds and justifies this mammoth villany. Here is what the *News* said in November and December last:

"We will say, however, that Congress cannot accept the Lecompton Constitution, without *repudiating* the principles and pledges of the Democratic party for the last three years, without being the instruments for consummating a *great outrage* upon the people of Kansas, and upon the men who stand pledged to the fundamental doctrine that *the People shall rule*."—*Milwaukee News, Nov. 20.*

"This bold attempt at political smuggling, is so foul and iniquitous, that it would be safe to predict anything undemocratic and unchristian of its reckless authors."

"We do not hesitate to pronounce the course of the Convention a departure from the line of democratic policy, a violation of the principles of the Kansas Nebraska Act, and an outrage upon the people of Kansas."—*Milwaukee News, Dec. 4.*

But two short months have elapsed and how changed the *News'* tune! It now sustains this "bold attempt at political smuggling," this "violation of the principles of the Kansas-Nebraska Act," this repudiation of "the principles and pledges of the Democratic party," this "great outrage upon the People of Kansas," and with Mr. BUCHANAN and our National Democratic Administration, insists upon it that *the People shall not rule!*

How it is to be done.

With his uniform partiality for the section, Mr. Buchanan has disclosed to the South the plan by which he expects to get the Lecompton swindle through Congress. The Washington correspondent of the Richmond *Enquirer* writes just how the thing is to be done:

WASHINGTON, Feb. 1.

The Lecompton Constitution has arrived and will be, to-day, submitted to Congress with a special message from the President of the United States. The fate of the Constitution is uncertain. Strict party discipline may carry it through the Senate, but in the House there is a majority of four against its reception, under any and all circumstances; and yet it is said that Mr. Buchanan has declared his determination to put it through Congress in thirty days or *burst*. These four votes may be had, as there are a number of desirable *Executive appointments* ready to be given out, but it will require nice party engineering.

The design to *buy* votes enough to carry through the Lecompton Swindle, is openly avowed, and may succeed; but woe to the Northern Judas-es who sell themselves!

AMERICA LOOKING UP.—The French *Journal des Debats* says the President's Message approaches more than any previous ones the style of an address from a throne of Europe.

From the Albany Journal, Feb. 6.

Prof. Daniels's Geological Survey of Wisconsin.

We have received a copy of the Annual Report of the Geological Survey of Wisconsin, made to the Governor of that State by Professor Edward Daniels, State Geologist.

By an act passed March 3d, 1857, this young, energetic and vigorous State made provisions for a Geological Survey, and it must be a source of just pride to its citizens, that men of science reside within her limits capable of undertaking and efficiently executing such a noble work. An American State improvised in the short space of three or four years from the rugged and unbroken wilderness, scarcely permits its first score of youthful years to pass before thousands of common schools and public libraries and numerous academies, colleges and universities are scattered all over its whole extent, diffusing the rays of that intelligence which, like the beams of the sun upon those boundless prairies, interpenetrate and vivify the minds of all within her borders.—Liberal provisions are also made for those scientific researches and surveys which an European Kingdom, with the accumulated wealth of a thousand years, hesitate to undertake.

As each new State of the occident wheels into the line of that great procession of Republican states, ever marching steadily onward toward an immortality of fame, may it; surpass its predecessor not only in general intelligence and high mental and moral culture, but in a scientific research and a noble appreciation of its own power and resources.

Prof. Daniels accompanies his report with a very able and interesting paper on "the Iron Ores of Wisconsin," showing that the undeveloped resources of that State are practically inexhaustible, and that with a proper investment of capital, skill and enterprise, she can supply half a dozen States with that metal which is as precious to the American people as silver and gold. The price of English rail road iron ranges from $50 to $80 per ton in New York, and there has been imported into the West (according to Prof. Daniel's Report) nearly 200,000, tons within the last ten years, worth $20,000,000, at $80 per ton. What would not this vast sum have accomplished had it been used toward the development of the invaluable mineral resources of this young and vigorous State. In the eloquent language of the Report before us:—

"If we would prosper permanently, we must do everything possible within ourselves. Whatever the Creator has given us in soil, mine, forest, lake and river, that less much fundamental capital which we are to make the most of, if we would carry out the designs of nature, and reap the reward. When we have improved all our resources to their fullest extent, and exhausted invention in attempts to create new values, there will still be enough that we shall need, and cannot produce, to sustain our foreign and domestic trade, and help to "wind the silken chain of commerce round the world;" and more, what will be well, both for our reputation and our pocket, we shall then have means to pay our distant neighbors for what we buy of them.

"Iron is truly one of the precious metals.—Its profusion enriches without demoralizing. Its returns are sure and steady, coming as the legitimate fruits of capital, skill and labor united to master the secrets of nature, and unravel her subtlest combinations.

"Our iron mines are more precious than veins of gold. Spain owning half the New World, sending her ships across the sea with every favoring breeze, guarded by inevitable armadas and loaded with the gold of her provinces, dispised her iron and drove away her craftsmen.

"England shut up in her island home, wrought silently among her mountains of iron, and supplied every market with her fabrics and her wares.

"Look now at the noble, growing, and beneficent civilization of the one: Contrast it with the rottenness and decay, verging fast upon dissolution, of the other.

"The expansion and development of our iron interest is well worthy of the serious attention of the State. It will add largely to our wealth, population and prosperity; it will enlarge our material dominion and give us commercial independence, and by introducing a new element into our industry, exert a healthy and prosperous influence upon the inventive genius of the people."

The Survey has not progressed sufficiently to develope the various points of scientific interest which have arisen in the Geological formations and specimens of other and older States, but enough has been elicited to prove that the appropriation of money from the State Treasury for this purpose, has been wisely made, and will in time be followed by the most beneficent results.

Prof. Daniels is a young man of well known scientific acquirements, of unfailing industry and indomitable perseverance, in whose hands the Geological Survey of Wisconsin will be zealously prosecuted to its completion.

From the Richmond Enquirer, Jan. 29.

The Equestrian Statue of Washington.

In obedience to the urgent demand of public curiosity, the equestrian statue of Washington, was yesterday uncovered, and all its beauties unveiled to the gaze of thousands, who, for several hours, stood around in admiring criticism of the group. About 12 M. the face of the Great Captain was uncovered, and three hearty cheers went up as the noble features were opened to view, a bright sunshine lighting up the face.—We must defer to an early day a description of the group, which, without one dissenting voice, so far as we could learn, is pronounced a wonderful triumph of art. In its details, the statue is perfect, and seems to move and speak with all the naturalness and vividness of nature.

The statue will be again veiled this morning—so that the tens of thousands who will visit Richmond on the 22nd February, may enjoy the surprise of novelty that delighted so many yesterday. We have to advise all who wish to realize the perfect likeness of Washington, as accordant with the face of Houdon's statue, to look at the statue of Washington from the east; that is, from the line running from the western point of the City Hall portico.

All we have to say at present is, that all our labors and anxieties about the success of the Virginia Washington monument are more than compensated by the unveiling of the Washington group.

In the language of a distinguished foreigner of talent and taste. Virginia, and Richmond, can justly claim to have the finest work of art in the world.

In conclusion, we are requested by several leading citizens to suggest that a public meeting of the citizens of Richmond be called at once, to make arrangements for the entertainment of the large number of visitors who will be in Richmond at the great celebration on the 22d February. We leave to others to carry out the patriotic suggestion.

STATE PRINTING.—The Madison Patriot says that according to the report of the Secretary of State, the Argus office has received for printing, publishing, &c., for the, past year, $40,361,40.—*Janesville Gazette.*

The *News* was greatly shocked, a few days since, at the discovery that the "enormous sum" of $20,000 had been paid, during the last year to various "Black Republican publishers," ostensibly for printing, but really as a reward for partisan services. The fact that its yoke-fellow of the: *Argus* received, during the same time, more than double that "enormous sum," seems, as yet, to have entirely escaped the *News'* attention.

WHAT THE MORMONS ARE ABOUT.— The following in an extract of a private letter, placed at the service of the Washington Union, and written by a gentleman of that city, now with Gov. Cumming, *en route* to Utah. The letter is dated Camp Scott, Dec. 1.

It is understood that the Saints are fortifying Echo Cannon by the means of a series of dams and canals; with these they can flood the cannon, and thus present a formidable barrier to our progress.

The latest news from Brigham is cheering; he is enjoying his absolute dominion over the Saints unalloyed by the presence of a single Gentile, who has not been sent out of the Territory by way of California, and it is understood that the Saints are to be gifted, and murmuring apostates sacrificed upon the altar of Mormonism. I am told that it is a fact that Brigham has said he would sacrifice in the public square all apostates, for by the shedding of their blood alone can they atone for the sin of apostacy.

HOLE-IN-THE-DAY'S DUEL.—A number of the St. Paul *Pioneer* of a later date than the one which noticed the death of Hole-in-the-day, makes some corrections in its first statement.—It says, it is true that a duel was proposed by the chief and accepted by Giggy, but instead of Colt's revolvers the weapons were pint flasks, filled with the worst kind of Indian whisky. Several shots passed between them, and Hole-in-the-Day fell early in the fight with a severe wound in the neck. "That's the way it begun."

OUT OF FUNDS IN TEXAS.—The San Antonio Herald, 15th inst., says both the Quartermasters and Paymasters' Departments of the Army at that post have been out of funds for a month past. More than fifty thousand dollars are now due Major Howard for hauling supplies for the Government from the coast to the different posts west.

THE AMERICAN RAILWAY AND TELEGRAPH IN JAPAN.—The Emperor of Japan, says a letter from that country, in the Paris *Paya*, has by a decree of the 26th of October last, appointed Prince Hayashi, High-Imperial Commissioner of the three ports of Nagaski, Simoda, and Hakodadi. In that capacity the management of relations with foreigners will be confided to him, and for his guidance the Emperor had caused to be drawn up a series of regulations, fixing the formalities to be observed by foreigners who want to take up their residence in the ports opened to them, the manner in which they are to carry on trade, and the privileges their consuls are to enjoy. These regulations are of a liberal character, and are in accordance with the spirit and letter of treaties. The present Emperor is a very enlightened man, and Prince Hayashi, who possesses all his confidence, is also intelligent, free from all prejudices against foreigners, and knows several European languages. When the Americans were here, they presented the Emperor with models of a railway, and with a small electric telegraph. His Majesty was greatly pleased with both, and had the latter fixed up in his palace; he thoroughly understands it, and appreciates its importance. He has ordered that a line of telegraph shall be constructed from Jeddo, his capital, to Simoda, where Prince Hayashi is to reside.

MINING REVIVED—NEW DISCOVERIES—OLD DIGGINGS.—Mining is reviving in Grant County; at least a third more mining is done this year than last, and from accounts reaching us, miners are more fortunate in making large discoveries than they have been for years—probably because more is done at prospecting or proving new grounds. Most of the mining done for some years has been mere overhauling of old and partially exhausted digging.

Grant county may always rely upon producing lead ore amounting to somewhere between $600,000 to $1,000,000 per annum even in the hardest of times. A few days ago, a smelter told us that there must be now $200,000 worth of mineral in the country ready for market. He says he can get no money of Corwith nor elsewhere to buy mineral; therefore the mineral must lie in store like wheat and produce of the farmers, for want of buyers. Mineral won't rot, nor will the rats eat it.—*Grant Co. Herald.*

NEW BUSINESS.—The Boston Transcript relates the following good one:—"It is well known in business circles that during the hard times, many persons indebted to our merchants have paid in produce and various articles of merchandise, and thus signs offering flour, wheat, butter, ect. for sale, have been placed on stores rather out of the line of such commodities. A merchant of this city, after seeing so many of his neighbors in the produce and provision business, said in a jocose way that he was going to put a sign on his door offering, "Buttermilk at two cents a quart." His remarks were overheard by an honest but slightly verdant lad employed in the store, who, desirous of making himself useful to his employer, made a bulletin in accordance with his master's threat. Great was the astonishment among the neighborhood to learn that the extensive wholesale house of ——, in Pearl street, were selling "Buttermilk at two cents a quart." The joke was too rich to last more than half an hour, but the demand for buttermilk at low rates rather increased than otherwise as the story spreads among the shoe trade."

BUSINESS CHANGE.—We learn that Hon. Walter D. McIndoe has leased his mills in this village and all grounds and appurtances pertaining to the milling business, to Col. Charles Shutter, his former partner in business, and Messrs. Hugh McIndoe and Charles H. Taylor for a term of five years. The lumbering establishment leased is said to be the most extensive of any in the State, being capable of manufacturing 60,000 feet of lumber in twenty-four hours.

The new firm—Shutter, McIndoe & Taylor—will also have charge of the mercantile business formerly carried on by W. D. McIndoe, and by McIndoe & Taylor. They now have several companies of men in the woods logging, and design getting a sufficient supply of logs to keep their mills running all next season, and to pile up their lumber on the Mississippi river bank, if the market will not justify a sale.—*Central Wisconsin.*

FOREST CITY BANK.—This Banking house is now located in Robinson's new stone block, where it has one of the neatest and most elegantly furnished offices in the whole State. This bank is considered, by men who pretend to be posted on all such matters, as one of the safest and most respectable in the State. It is owned by a wealthy and sagacious set of men, several of whom are worth more than similar institutions of larger pretensions. We are, in the main, opposed to all banks, but if we must tolerate them we say patronize such as are conducted on the soundest basis and most honorable principles.—*Waukesha Democrat.*

THE WEATHER.—To-day our unusually mild winter manifests some colder symptoms. The thermometer this (Wednesday) morning was down to 12 "below zero, much lower than it has been before since about the 20th of November. We have scarcely snow enough to whiten the ground, yet in the roads sufficient ice remains to make tolerably fair slipping.—*Central Wisconsin, Feb. 3.*

Manitou City Town and Land Company.

A. B. PAUL, one of the proprietors, is now in this city for the purpose of securing machinery for mills, &c. All persons contemplating moving West early in the coming season, are cordially invited to call and examine our plans, maps, &c., at the American House. A good opportunity is also offered to mechanics and tradesmen of all kinds, to secure—"even with limited means"—good homes in one of the richest valleys of the Northwest.

See pamphlet containing sketch, &c., of country adjacent, and plan of the proprietors in building up an important point on the Sioux River, Iowa. We want actual settlers. Call and see us and talk the matter over. dec28 0tf

A VALUABLE MEDICINE.

DURING the present week no less than six of our friends who have been induced to try Prof. De Grath's Electric Oil for Rheumatism, in consequence of having seen this preparation advertised in our columns, have called upon us to state the result of their experiments.—These persons assure us that their rheumatic pains have been entirely cured by a few applications of De Grath's Electric Oil, and they recommend its use to all who are afflicted with any of the diseases which it is designed to cure.—*Prov. Adv.*

☞ There are plenty of young gentlemen as well as plenty of old ones whose beards are turning grey, which gives them the appearance of old age, and exposes the age of the latter. To avoid these little perplexities, we advise such of our readers to use Prof. Wood's Hair Restorative, which will, in the course of a few weeks, change the hair to its natural color. It does not dye the hair like the most of the hair restoratives, but produces a gradual change of color from the roots of the hair to the final end, and gives it a fine and glossy appearance. We have seen many persons who have used it success ully, and pronounce it the only invention which has come to their idea of a cure for grey heads.—We commenced using it about two months since, and if we are any judge of age and beauty, it has made us at least ten years younger; in fact we are beginning to look quite young, and feel very much like getting a young wife. The change is miraculous, and it would be as difficult to find a grey hair now as it would be to find an idea in the head of the Duke of Buckingham. We know several old maids and some young widows, whose looks are just beginning to assume a silvery hue; and who have been taking serious y about resorting to this remedy, and we advise them not to delay any longer. It never fails.—*St. Louis Herald.*

THE UNLOVED ONE.

Xerotes is a man of sense,
He lives but for himself alone;
No wife's endearments sooth his cares,
Nor sweet small footsteps o'n the stairs;
Nephews or niece—he'll let the name,
No slave is half so heart for them:
For no one in the world cares he,
And yet no man beloved would be.

Grave views of life Xerotes takes,
He scorns at holidays and wakes;
A merry laugh provokes his frown,
He utterly puts all mirth down.
While through the village runs the jest,
He's made unloved amidst the rest.
A chill joy, hated mush is his,
Yet fain Xerotes loved would be.

Or nobly, thoughtful, generous, bold,
Xerotes fain not to be told;
Tell bits of those who do notice,
And suffer for't—you give him bliss.
Spoak of the reckless and absurd,
He hates such detractive word.
Or, to the commonplace's his,
And yet he fain beloved would be.

Cold, timid, tiptoased up and grim,
Few words he's ever obliged to him;
Yet while he does so little good,
He talks of man's ingratitude—
Ungrateful, you easy will believe,
For favors that they ne'er received—
Yet, though a misanthrope is he,
Xerotes sin beloved would be.

Self love, oh what a witch thou art,
What tricks thou playest with the heart,
To keep this wiest of mankind
To one small piece of wisdom blind;
To cheerless life, day after day,
To make him waste himself away,
Hoping not what a child may see,
The' unloving nor beloved can be!

CALEB WALL'S ADV'TS

CITY AUCTION ROOM.

City Auction Room.

THE GREAT SALE OF DRY GOODS still continues at the corner of Spring and West Water Sts. Twenty thousand dollars worth of Dry Goods to be sold at one half their usual prices.
This is a rare opportunity to get good goods at much lower prices than can be found at any other place. This is no sham sale. The goods are direct from New York, and *must* be sold. Remember the place, the corner of Spring and Water Sts., formerly occupied by J. L. Pierce, on west side of the river.

EXTENSIVE SALE OF CHOICE FURNITURE, On Friday morning, at 10 o'clock, I will sell, at the City Land Office, on Michigan street, full Chamber Set, Extension Tables, Chairs, Parlor Seats, (very handsome,) and a general assortment of articles for Parlors, Bedrooms and Offices. The furniture offered is of the best description of workmanship, and must be sold. The public are invited to call and examine for themselves. Jan21 CALEB WALL, Auctioneer.

City Auction Room.

SPECIAL NOTICE.—I will be absent in New York for some time on business. Mr. AYRES will take charge of my business in Milwaukee, and all who have any goods to dispose of at auction, they will be attended to as usual, with promptness.
jan26 CALEB WALL.

City Auction Room.

I HAVE arranged, at the Land Office, on Michigan Street, an assortment of Parlor, Bed Room and Office Furniture, which I will sell at private sale during this week, and on Wednesday, at ten in the morning, I will offer a portion at auction. The people are requested to examine these articles for themselves. Prices are far below anything ever offered before.
Jan26 CALEB WALL.

Special Notice—City Land Office.

IN VIEW of the difficulty of obtaining money in this city, we have made arrangements at New York which will enable us to trade off for goods or cash, Real Estate of every description, Railroad Securities, Mortgages, &c. Mr. Wall has gone to New York expressly to remain as long as may be required. Parties having collections to make there, or property of any kind which they wish to dispose of, by calling at our office, Michigan Street, will receive all the information which they may desire, and we will forward to Mr. Wall such instructions as they may think proper to leave.

THE UNDERSIGNED would invite all interested parties to examine a working model of a BRICK MACHINE, which is superior to all others ever brought before the public. It is much cheaper, more portable and more *simple* as not to be liable to *get out of order*. Three men and one boy can make from 12 to 15,000 perfect Brick per day. It can be run with *less power* than any other. Two horse or 8 to 10 inch will work with ease. It makes the Brick directly from the bank, without tempering, and can make Brick all seasons of the year, without regard to weather. Circulars sent by addressing W. HUTCHINGS, Box 1699, Chicago, Ill. The model can be seen at 167 Randolph St., Chicago. Also, samples of Brick made by the machine.

LESSONS IN Foreign Languages.

MR. AND MRS. L. S. S. DE CHEVY, from Paris, for four years past instructors in foreign languages in Milwaukee, have the honor to inform the public that they will form classes in the French, Italian and Spanish Languages on the 1st of September next. The course of instruction will be according to the age and intelligence of the pupils, and the classes kept entirely separate, their house being arranged with that view.

Gentlemen and ladies who begin to speak either of these languages, can receive lessons in Reading and Conversation, Mr. De Chevy furnishing books of the best French authors. Those too wishing to learn vocal music in either of these languages, will find a competent music teacher in the establishment.

The hours of instruction will be from 8 to 11 o'clock A. M., and from 2 to 5 P. M., And in the evening from half past 7 to 9, for conversation.

Mr. DE CHEVY will also give lessons in French, Spanish and Italian, at his office, or private residence, from 7 to 10 o'clock in the evening, as also lessons in Fencing, the use of the Sword, and all military exercises. Persons of delicate constitution and feeble temperament, as also those confined to their offices and engaged in sedentary pursuits, will derive from these exercises, improvement in their health, acquire strength in their limbs and find an agreeable recreation.

Mr. De Chevy will also form similar classes for children, from 10 to 16 yearsold, at his house, or office, as parents may prefer. Fathers and mothers who desire to see their children strong, active and robust, can judge for themselves, after a few weeks' trial, as to the effect of these different exercises upon their health.

The continued patronage of the public is respectfully solicited.

TO MERCHANTS.—Mr. DE CHEVY will take charge of French correspondence to all the principal cities of France and will procure all Price Currents that they may want.
